

**Event name:** INTEGRATE 2024

**Theme:** Power the Possible with Data

**Date:** Wednesday, November 13

**Location:** Capital One Hall, Tysons Corner (Vault and Lounge Rooms)

**Time:** 8:00 a.m. – 3:30 p.m., Reception follows 3:30 p.m. – 5:30 p.m.

### Agenda In Detail

8:00 a.m. – 9:00 a.m.	<b>Registration, Breakfast, Networking</b>
9:00 a.m. – 9:15 a.m.	<b>Welcome</b>
9:15 a.m. – 10:00 a.m.	<p><b>Data Infrastructure for the Mission Critical</b></p> <p>During this session, we will share real-world use cases and examples, demonstrating the key benefits of partnering with Hitachi Vantara Federal. Learn how we support federal missions, from ensuring energy security and protecting critical infrastructure to harnessing data for AI and analytics. This session will show how our integrated solutions can transform the federal landscape, enabling agencies to maximize their data potential. We will also present the 'One Hitachi' strategy, a comprehensive approach designed to effectively empower federal systems integrators to address the extensive requirements of their federal customer missions.</p>
10:00 a.m. – 10:45 a.m.	<p><b>Powering Mission Success with Data Featuring Lt. Gen. Robert J. Skinner, USAF (Ret.)</b></p> <p>Lt. Gen. Robert Skinner, a veteran leader with decades of experience in managing some of the most complex and critical data operations within the Department of Defense, will deliver a keynote exploring data's indispensable role in modern military operations. Throughout his distinguished career, Lt. Gen. Skinner has led initiatives that have fundamentally reshaped how data and technology drive decision-making, readiness, and mission outcomes across the globe. This keynote will inspire federal systems integrators to think beyond traditional data management and explore how they can play a critical role in supporting mission-critical initiatives through data-driven innovation.</p>

10:45 a.m. – 11:00 a.m.	<b>Break</b>
11:00 a.m. – 11:30 a.m.	<p><b>Next-Generation Data Platform</b></p> <p>A robust data foundation will transform your data management strategy, providing complete visibility and interoperability to unlock deeper insights faster. We will explore Hitachi Vantara Federal's new Virtual Storage Platform One (VSP One) a transformative approach to storage, designed to operate seamlessly across hybrid and multi-cloud environments. This platform ensures consistency and simplicity, helping organizations manage the exponential growth of data while maintaining robust protection and security.</p>
11:30 a.m. – 12:00 p.m.	<p><b>Build AI-Ready Solutions for Federal Agencies</b></p> <p>We will explore how Hitachi iQ, a cutting-edge AI-ready reference architecture developed with NVIDIA, accelerates your AI initiatives. Unlike conventional offerings, Hitachi iQ empowers organizations with seamless integration of industry-leading AI technologies, enabling accurate, timely decisions regardless of data location. This session covers the potential of Generative AI and Machine Learning, common enterprise challenges, and how Hitachi's strategy and solutions help organizations tackle high-performance workloads and unlock AI's full potential for your clients.</p>
12:00 p.m. – 1:00 p.m.	<b>Lunch</b>
1:00 p.m. – 1:30 p.m.	<p><b>Future-Proofing Federal IT with Hybrid Cloud</b></p> <p>In the highly regulated and data-intensive world of government operations, hybrid cloud solutions offer the potential to unlock new levels of innovation, agility, and cost efficiency. This session will review the current state of hybrid cloud adoption in the public sector. Panelists will assess the extent of hybrid cloud implementation, delve into the key considerations and challenges government agencies face, and highlight real-world case studies of public sector organizations that are leading the way. Additionally, it will discuss future trends and developments in hybrid cloud technology, providing invaluable insights to help agencies enhance their cloud strategy.</p>
1:30 p.m. – 2:00 p.m.	<p><b>Evolve from Data Protection to Cyber and Operational Resilience</b></p> <p>Traditional backup methods are no longer enough to keep government agencies operational in today's complex environment. Achieving true resilience requires a modern approach with features like immutable data, AI-driven detection, unified management, and rapid recovery. This session, featuring presenters from Commvault and Hitachi Vantara will explore advanced solutions to help your government clients protect against cyber threats, detect anomalies, and ensure operational resilience for mission-critical applications.</p>
2:00 p.m. – 2:15 p.m.	<b>Break</b>
2:15 p.m. – 2:45 p.m.	<p><b>Enhance Mission Outcomes through Data Fitness</b></p> <p>This session focuses on the concept of Data Fitness—an essential measure of an organization's ability to manage, utilize, and derive value from data to achieve mission-critical goals. Systems integrators will learn actionable strategies to help government customers optimize data management, accelerate data-driven decision-making, and fortify the resilience of their information systems. The session will also address federal sector-specific challenges and explore innovative approaches to harnessing data for superior mission outcomes and organizational agility.</p>
2:45 p.m. – 3:30 p.m.	<p><b>Unlimited Possibilities Through Partnership</b></p> <p>This final session will explore the compelling reasons why partnering with Hitachi Vantara Federal can drive mission outcomes and unlock new business</p>

	opportunities. Discover how our proven solutions, deep industry expertise, and collaborative approach can help you win more profitable contracts while enabling government customers to achieve mission success. This session will also guide you on how to get started with Hitachi Vantara Federal, ensuring a seamless partnership experience that delivers unmatched value to your clients.
3:30 p.m. – 5:30 p.m.	<b>Reception</b>
